SUMMARY

Computer Engineering diploma graduate, self-taught in building working software outside the classroom, including Android apps and simple automation tools. I have basic knowledge of Java, Kotlin, Python, and JavaScript, and I'm genuinely open to learning whatever a role requires. I've built a couple of small personal projects on my own and have basic hands-on experience connecting apps to Firebase and APIs. I don't have professional work experience yet, but I'm a fast learner and looking for an entry-level software developer or application developer role where I can grow in a real company environment.

TECHNICAL SKILLS

- Programming Languages: Java, Kotlin, Python, JavaScript (basic knowledge, ready to learn anything), HTML, CSS
- Mobile Development: Android Studio, basic Android app development
- Software Tools: Firebase (login and data storage for small projects), Git, GitHub
- Basic understanding of working with APIs (connecting an app to outside services)
- Video Editing: Editing personal and creative videos since 2020 using CapCut and Alight Motion - transitions, effects, and short-form creative edits
- Hardware Knowledge: Basic understanding of computer hardware and troubleshooting
- Good at learning new tools quickly on my own

PROJECTS

DoitNow - Android To-Do List Application - Kotlin, Firebase

- Built a simple to-do app where users can add tasks and reminders
- Used Firebase to save tasks so they don't get lost, with a basic AI-based task suggestion feature

Nadodi - Kerala Travel Discovery Application - Basic Android/Web build

- Built a simple travel app idea to help people discover hidden and lesser-known places across Kerala
- Worked on basic data organization for locations and a simple user interface

EDUCATION

Diploma in Computer Engineering - Model Residential Polytechnic College, Kuzhalmannam, Palakkad, Kerala
Completed May 2026

CERTIFICATIONS

- Introduction to Software Engineering - Coursera (IBM), 2024

ADDITIONAL INFORMATION

- I don't have any job experience yet - this will be my first job
- Comfortable working on Android phone and laptop, fast learner, ready to join immediately
- Languages known: English, Malayalam
